

HISTORIAN

The IQI Historian is usually the immediate past president and keeps a record/copy of all newsletters of the year(s) he or she is in office, a program of the Fine Art of Fiber show, membership directory, and any other documents that are deemed worthy of inclusion in the archives, i.e. photos, etc.

At the time of this writing (March, 2012), the archives are being stored at the Wilmette Historical Society Museum, where items can be added to the storage boxes, and where they can be viewed at any time the museum is open to the public.
